K120 New pallet wrapping machine

Specification:

K120 new pallet wrapping machine was designed base on higher performance and lower noise, higher protect level and lower power consumption, during 1-year research and test, this new model is a big surprise !

[Technology data]

Model	K120
Wrap size (L X W)	(500-1200)mm X (500-1100)mm
Wrap height (max)	2400mm
Turntable diameter	1650mm
Turntable rotary speed	0-12rpm adjustable by inverter
Turntable height	78mm
Turntable weight capacity (max)	2000Kg
Film carriage	Power pre-stretch system up to 300% with adjustable speed
Wrap efficiency	20-40 Pallets/Hour

Mast(lift system)	Film carriage lift speed adjustable by inverter
Control system	PLC control
Total weight(max)	450kg
Power/voltage	Turntable:0.75kw Film carriage:0.37kw Mast: 0.37kw/ AC220V 50HZ
Machine size	2460mm X 1650mm X 2700mm
Ramp	Optional
Top plate	Optional

Factory: No.9,Photoelectric Science and Technology Industrial Park,
Jianhu Town, Yancheng City, Jiangsu Province
